Total

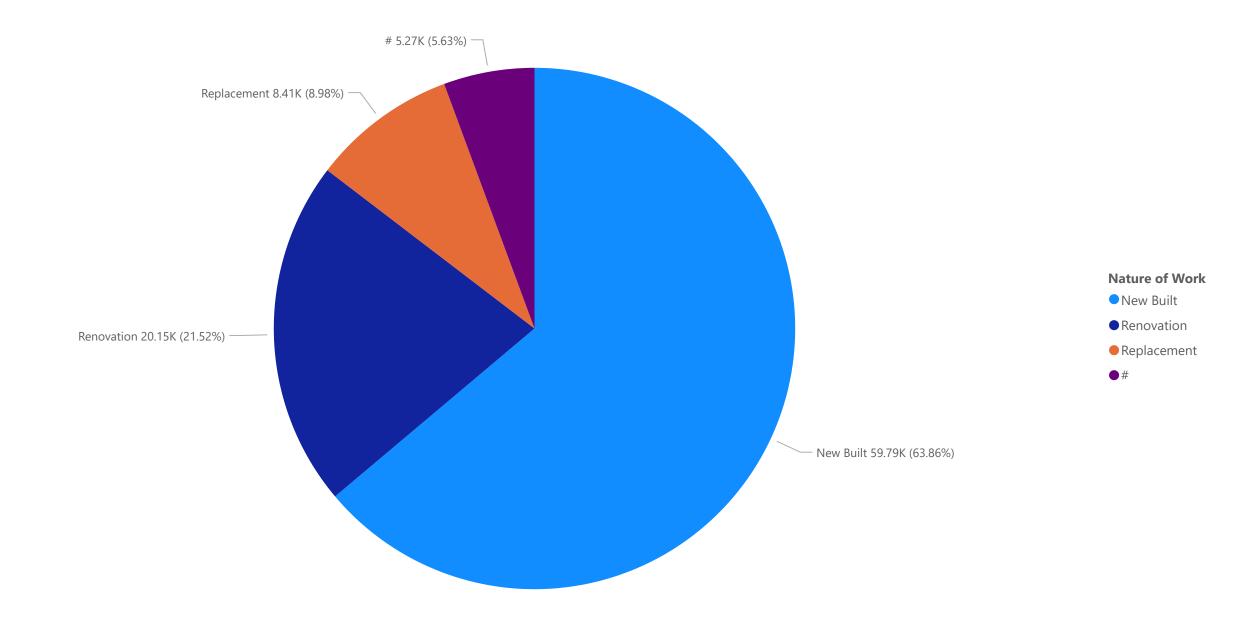

Count of order phase by Zone and order phase

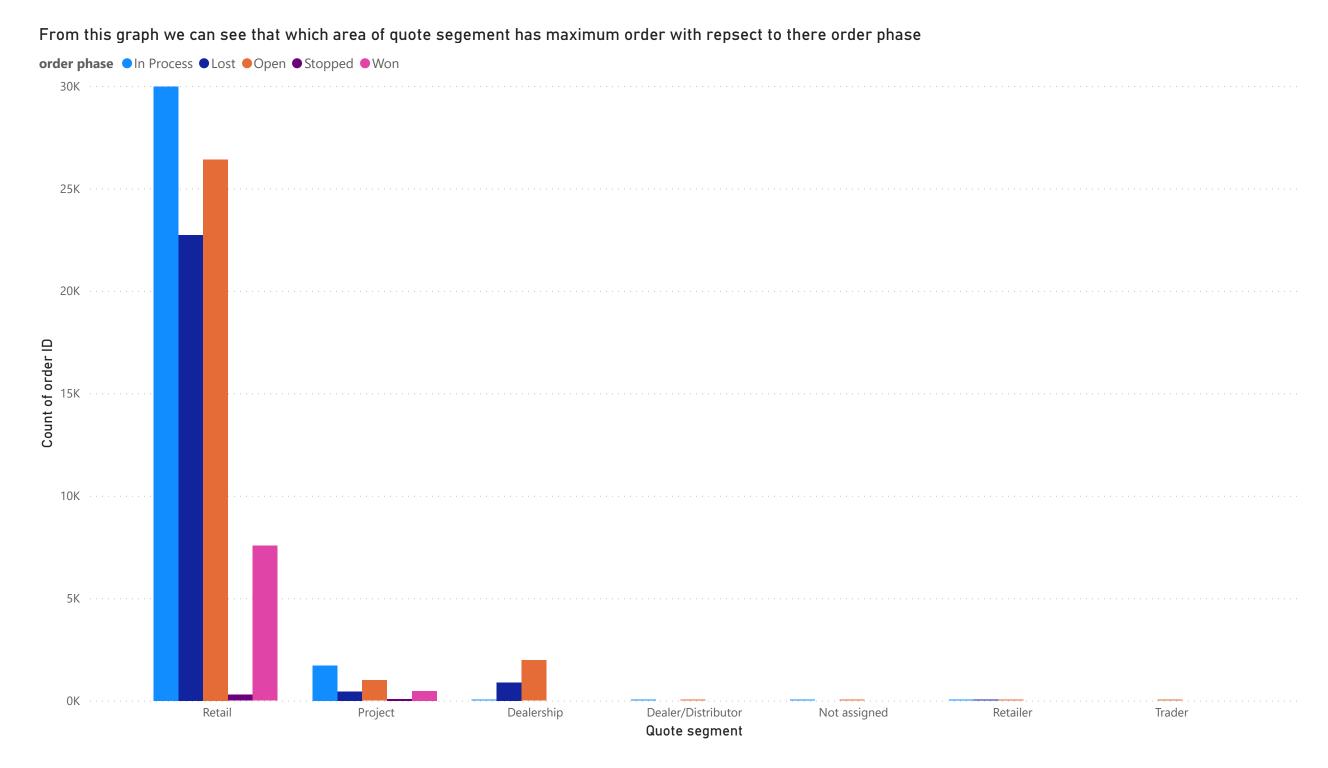

Sum of sales by type of order

From this graph we focus on ourNature of Work as per order

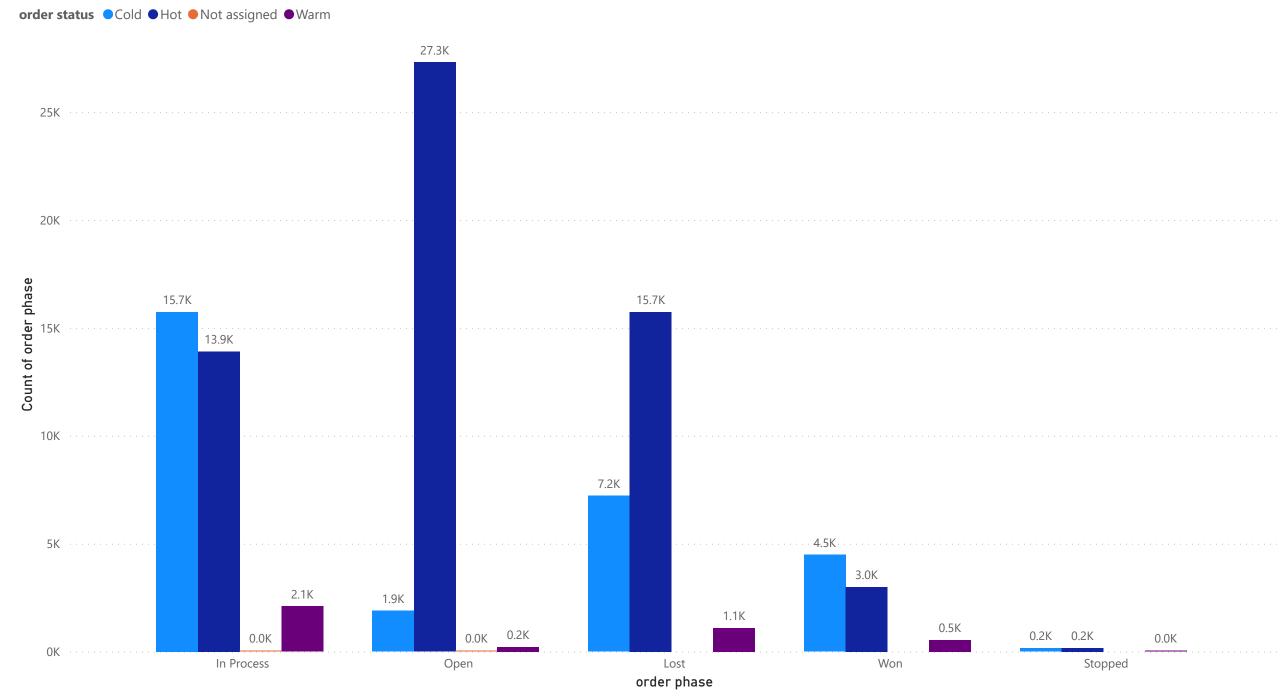

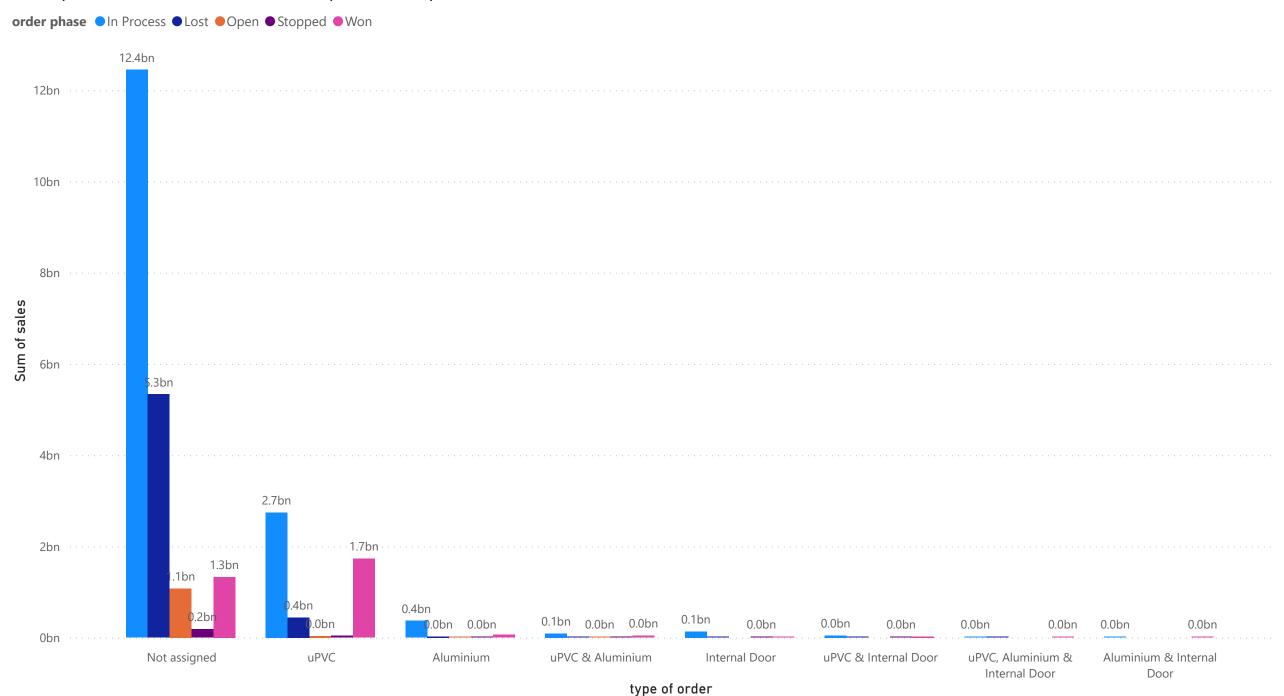

Thsi graph represent which region has succesfull order phase and there total sales

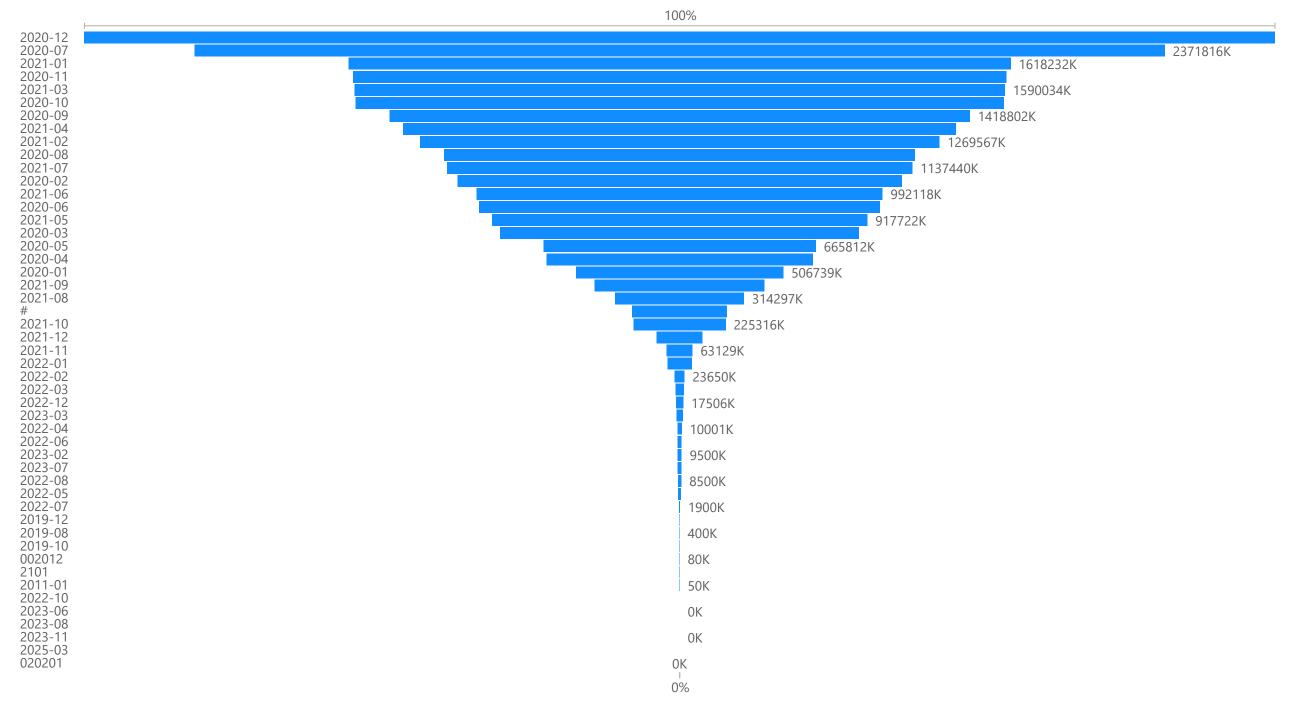

This graph represent status of order phase with order status so that we focus on which phase with our won status

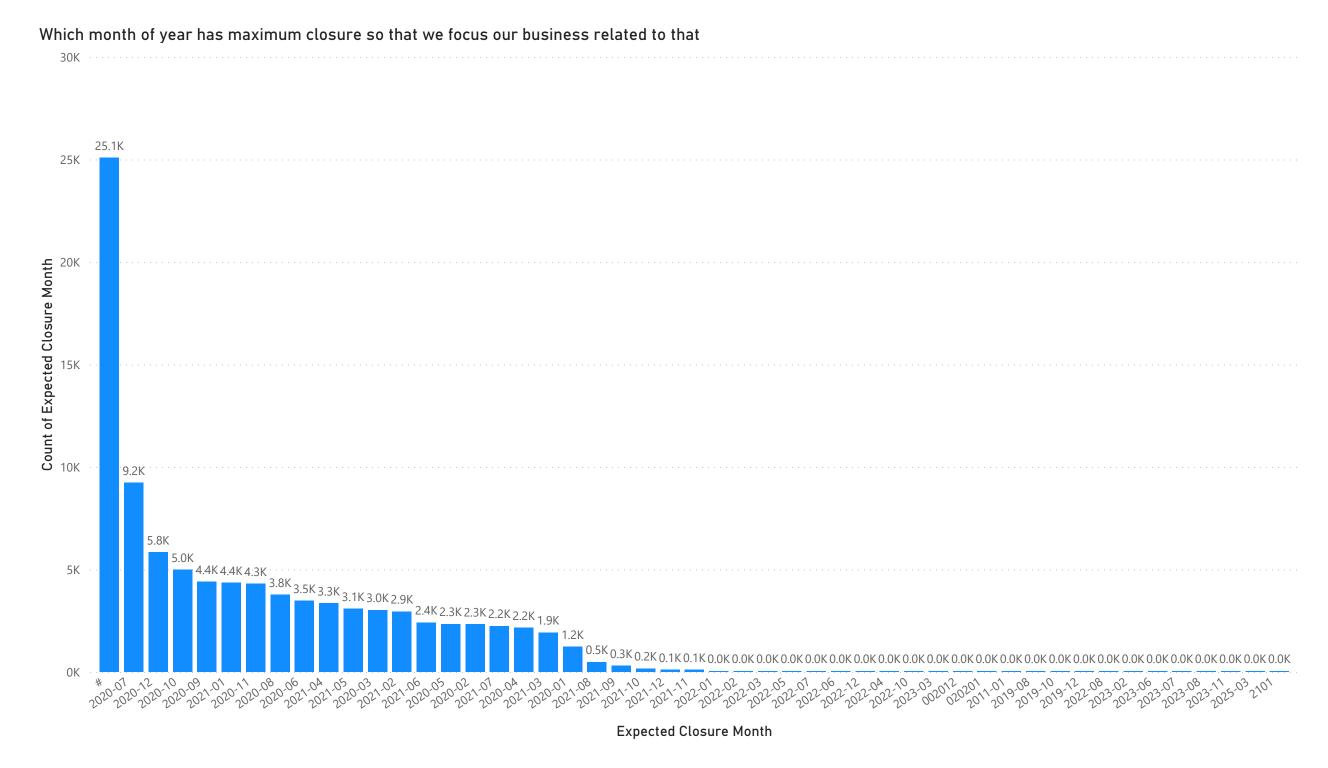

Which product has maximum sales with repect to there phase

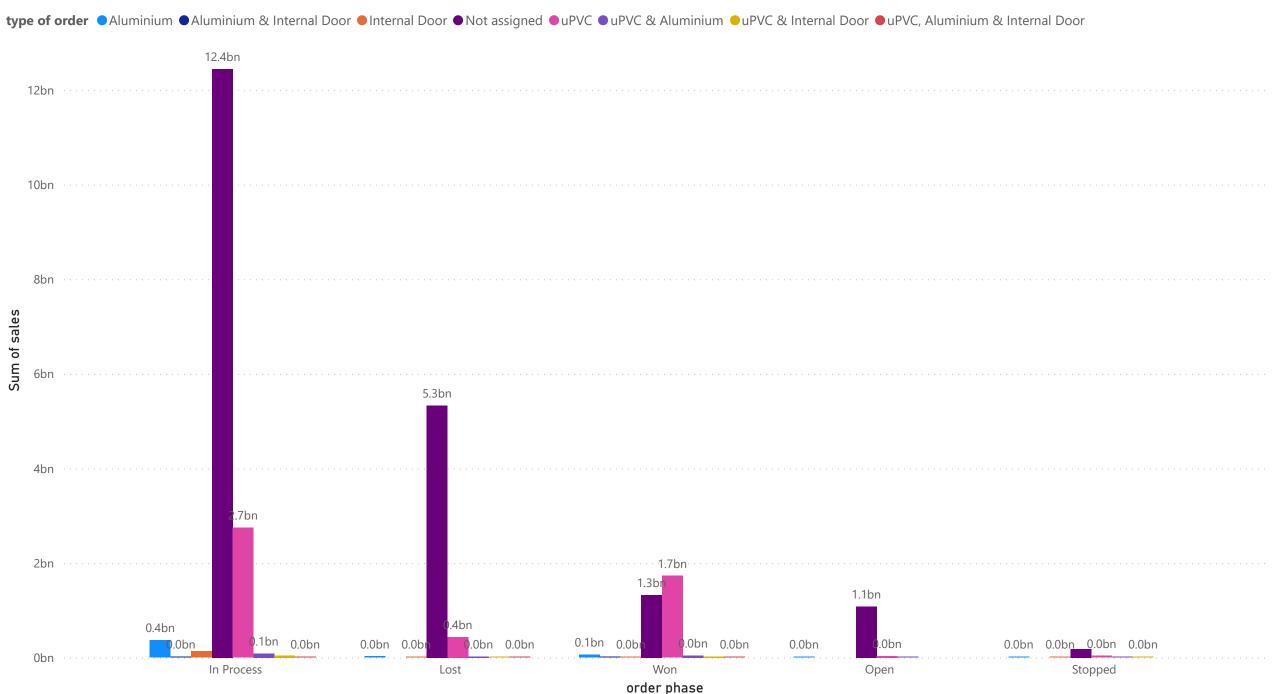

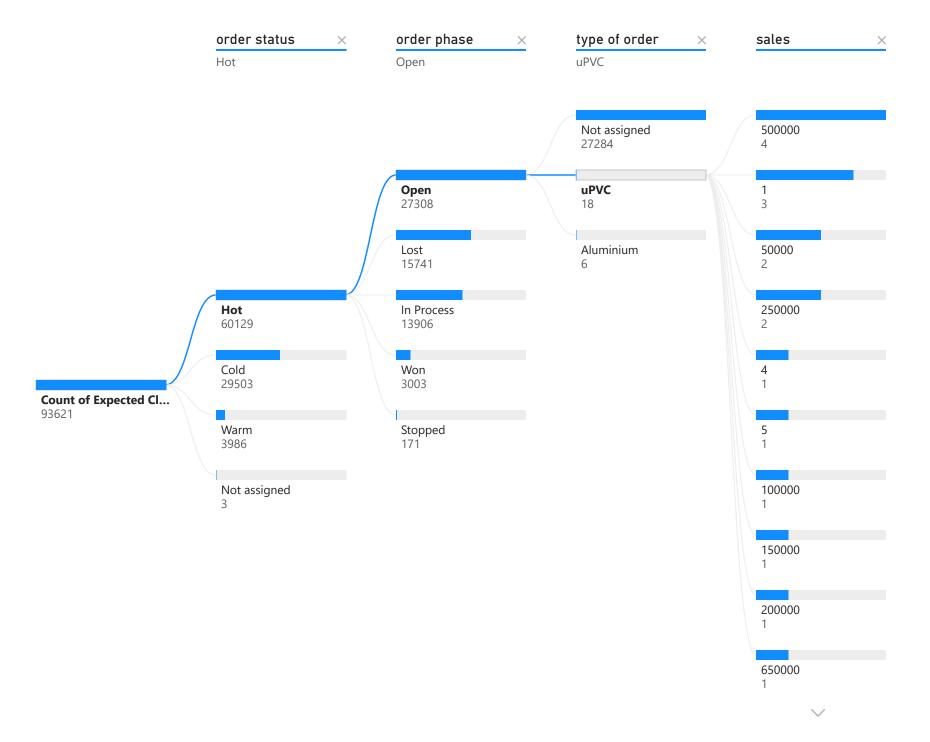

From the graph we can see our sales as per year and month we which month of the year we have maximm sales

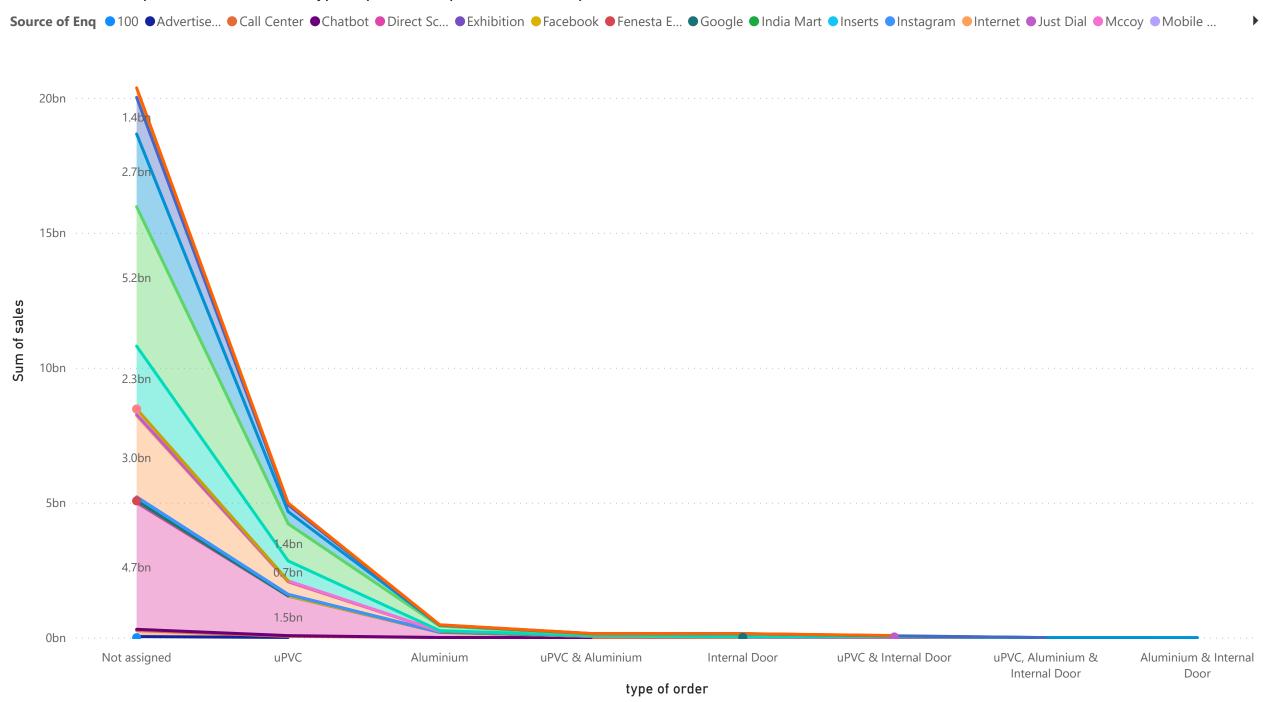

This graph represent sum of total sales by there order phase and type

This area chart represent our sales and type of product as per Source of Enq
